

## Warm Front Brand Premium Grade Wood Pellets

Warm Front wood pellets exceed the Pellet Fuel Institute's premium grade specifications, and are produced by Schuyler Wood Pellet. Quality characteristics are as follows. The independent lab tests are available by contacting Schuyler Wood Pellet LLC.

Heat Value	7,900 - 8,200 btu / pound at 4% moisture content
Moisture Content	4 to 6 %
Ash Content	0.4 to 0.7 % (PFI premium standard <1% by weight)
Density	>40 lb./cu. ft.

Product is packaged in 40 lb. bags with distinctive green base and clear bag showcasing the premium wood pellets to consumers. Warm Front is available across the Northeast to independent retailers.
